

200603 M5 | L1 Lab Demand Generation Plan Template

Exercise 3: Develop a demand generation plan for the scenario.

Part I: Complete the demand generation plan based on the product concept and additional information provided.

Demand generation plan template	
Planning component	Recommended entries
Marketing objectives	• Define product marketing campaign objectives • Define the demand generation budget and resources required
Current market trends	• Define the market trends for this product
Primary marketing theme	• Define demand generation themes based on marketing research and trends • Share how you will capture the customer's attention
Target audience	• Define the market segments you will target • Define segments by demographics or regions
Specific programs or tactics	• Summarize all promotion vehicles or advertising tactics you will use to generate demand
Campaign schedule	• Summarize demand generation programs and the timeline to implement them
Industry associations and expert engagement	• Identify organizations and key influencers the campaign will try to engage
Key tracking metrics	• Share how the campaign's effectiveness will be tracked and measured
Demand generation lead	• Identify who is assigned to implement the demand generation plan

Part II: Demand generation plan template

Demand generation plan template	
Planning component	Recommended entries
Marketing objectives	Generate strong awareness and demand for the Mobile WB-3000. Achieve at least 3000 unit sales in Year 1. Budget includes \$50K for marketing/events and allocated internal resources
Current market trends	Growing demand for remote collaboration tools, virtual classrooms, and mobile work solutions. Increased face-to-face meetings combined with digital integration needs.
Primary marketing theme	"Take your whiteboard anywhere." Focus on portability, real-time collaboration, and affordability. Capture attention through demos, videos, and real-world use cases
Target audience	Educators, business professionals, managers, and mobile workers. Segments include educational institutions, corporate teams, government agencies, and remote workers globally.
Specific programs or tactics	Social media campaigns, product videos, landing page, email marketing, trade shows, influencer (early adopter) outreach, free product trials, and promotional discounts.
Campaign schedule	Campaign begins in June (pre-launch awareness), intensifies during July launch, and continues through events in August and September. Ongoing digital marketing post-launch.
Industry associations and expert engagement	Engage educational institutions, corporate partners, and early adopters as influencers. Participate in industry conferences and technology events
Key tracking metrics	Marketing Qualified Leads (MQLs), Sales Qualified Leads (SQLs), cost per acquisition, conversion rates, total sales, and customer feedback/testimonials
Demand generation lead	Marketing Director is responsible for executing and managing the demand generation plan.
